Clinical Quality Management Release Form
Quality / Outcomes Data

When to Complete the Form:
This form should be completed if any quality data is used or shared outside of formal OSU quality forums. For example:

- Participation in new clinical database or registry
- Release of data required by state or federal regulations or other regulatory agency
- Release of data required by 3rd party payer contract
- Projects or research which involves data gathered for OSUWMC quality purposes – with the intent to publish or present results at a conference or classroom
- Any other reason that would result in data gathered for quality improvement purposes at OSUWMC to be released externally or internally outside of a quality session/meeting.

Review Process:
1. Click on “Online Data Quality Release Form” found on OneSource – Quality & Patient Safety
2. Complete form and submit to Executive Sponsor for approval
3. After approval by Executive Sponsor, request will be routed to Chief Quality Officer for final approval
4. You will receive a notification email when you save or submit the form, and when your form has been approved or rejected. You can check the status of your requests by clicking here.
   IMPORTANT NOTE: If you checkout your request it will stop the approval process and need to be resubmitted.
5. Quality Review
6. Legal Review – If Privacy / Contractual Concerns:
   - Choice of state law is other than Ohio
   - Request for OSUWMC to indemnify
   - Able to identify OSUWMC or physicians/parties without prior approval
   - Need for HIPAA Business Associates Agreement
   - Need for HIPAA Data Use Agreement
7. Review by Chief Quality Officer

Types of Quality Data:
- **Process indicators** measure the completion of steps in the process, such as beta-blocker use after AMI or antibiotic delivery within one hour of cut time.
- **Outcome indicators** measure the result of the process, such as mortality and complication rates.
- **Adverse Event** – Any injury caused by medical care, for example, healthcare acquired infection.

Examples:
- **Databases**
  - Bariatric Surgery Program – Bariatric Outcomes Longitudinal Database (BOLD)
  - Ventricular Assist Device Program – INTERMACS Registry
- **QI/Research Projects**
  - Ohio Perinatal Quality Collaborative
  - Impact of system-centered factors and processes of nursing care on fall prevalence and injuries from falls (funded by RWJ)
- **Articles/Publication**
  - Lung Volume Reduction Surgery Complication Evaluation
  - Impact of alcohol withdrawal guideline on recognition and treatment of alcohol withdrawal syndrome in burn patients
